PET2 -- a one-night DX session on 26-27 January 2001 in **Petolahti**, 40 kilometres south of Vaasa, Finland. Participants: **Patrik Willför and Jari Perkiömäki**, Vaasa. Antennas: 235 degrees 400 m, 255 degrees 850 m, 285 degrees 800 m, 310 degrees 700 m. Receivers: 2 x AOR AR7030 Plus.

VJR/N - Vesa-Jussi Rinkinen Tampereen Niihamassa

LEM146/JPI LISÄLOKI

Tässä LEM146 lisäloki minun osalta. Jokunen unid on vielä työnalla, muuten on nauhat käyty läpi ja raportit maailmalla omalla ennätys vauhdilla. Nyt kun kaikki nauhat on kuunneltu voidaan todeta pari mielenkiintoista asiaa. Teksas on vaikeana osavaltiona kokenut inflaation: 5 uutta asemaa tuli raportoitua sieltä (1700 KTBK, 1660 KRZX, 1620 WTAW, 1610 KALT, 940 KIXZ) ja Idahon Pocatellon kaupungin kolmesta asemasta kaksi tuli napattua: 930 KSEI ja 1240 KWIK. Pari asiaa on pysynyt muuttumattomana: 1400 dominantti on KART ja 1490 vastaava on KEYG, muut ovatkin työn takana. Raportti määrä on kohonnut lähes sataan, joten alle 6 päivän pedikseen maksimin aikana, olen enemmän kuin tyytyväinen. JHU on kuunnellut unideja ja niitä ratkonut, josta hänelle kiitokset! Perinteitä kunnioittaen on hilseet jätetty taas pois.

LEM148 - pedition Lemmenjoelle 6.1. - 13.1.00

Osallistujat: Håkan Sundman (HS), Helsinki

Hannu Tikkanen (HAT), Espoo

Laitteisto: 2xNRD525, 2xNRD535D, ym apulaitteistot - ja splitattu LEM-antennifarmi

Peditioni alkoi hiukan erikoisesti, kun VR oli unohtanut varata vetureita riittävästi. Pohjoiseen päin vartoi juna jos toinenkin, kunnes päästiin reilun tunnin vehtaamisen jälkeen liikkeelle. Pellon kohdalla juna tempaisi ylimääräiset porot pois radalta, ja taas odoteltiin jonkin aikaa jälkien siivoamista. Paniikkiin ei kuitenkaan ollut aihetta, koska kelien mietous oli jo etukäteen tiedossa. Tästä huolimatta hätisteltiin edelliset kuuntelijat pois radioiden äärestä jo klo 14 SA kämppää siivoamaan, jotta uudet pääsivät puikkoihin...

Kelit olivat tälläkin kerralla hyvin maltilliset. Jenkkien eteen sai tehdä töitä tosissaan, mutta ei ole tarkoitus valittaa, koska jenkkejä kuitenkin kuului. Parhaat sinkut sattuiivat traditionaalisesti poislähtöpäiväksi, jolloin kuuntelu piti lopettaa 12.06 SA vaikka länsirannikkoa vielä kuuluikin kohtuullisesti.

Eurooppalaiset jätettiin pääsääntöisesti rauhaan, Briteistä kuulosteltiin vain muutama satunnainen otos. Ibsuja kytättiin sitäkin aktiivisemmin, ja varsinkin HS sai hyvin raportteja. Yksi merkkipaalu Iberia-kuuntelun osalta ajoittui tällä peditionilla HAT:lle, kun viimeinen kansioista puuttuva SER-asema lopulta jäi tarppiin! Afroja ei kuulunut mutta ei kovin rankasti kytättykään. Sopivat Afro-hötinät tuntuivat puuttu- van kokonaan. Aasian suunnalta vallitseva kieli oli mannerkiina. Japseja ja korealaisia kuultiin muutama yksittäinen näyte, ja sama koskee filippiinoja. Poislähtöä edeltävänä päivänä iso luuta lakaisi ysitaajuudet tyhjiksi jättäen paikalle vain Lähi-Idän ja voimakkaat eurooppalaiset. Oseanian ainoa anti olivat x-bandin aussit. Nauhoituksia on, mutta mitä niistä selviää, onkin jo toinen juttu. Harhoja ainakin kuului aussit-taajuuksilla, koska yhdellä taajuudella feidaili seassa ainakin BBC World Service...

Paremmen tekemisen puutteessa pidettiin yllä omaa Tehorankki-kisaa, josta ennätys oli yhdeltä taajuu-delta yhteensä 2.600.000 wattia. Tähän tarvittiin vain kaksi raporttia.

Pohjois-Amerikka veti siis jo muutaman vuoden aikana totuttua linjaa, eli x-band ja satunnaiset yksittäiset graveyarderit mahdollistivat raportoinnin. Joitakin regionaaleja jäi onneksi myös haaviin, mutta vähän. Poislähtöpäivänä signaalit nousivat 09 SA kieppeillä erittäin vahvoiksi suuntana Kalifornia. HS sai läh-dön alla hyviä irroituksia paikanpäällä ja HAT kotona nauhoilta. Keli levisi pitkin länsirannikkoa puoleen päivään mennessä, jolloin pitikin pistää radiot taas vuodeksi jäähyllle.

Keskiaalloilla lattareista: Keski-Amerikasta kuului vain muutama meksikaani ja pari dominikaania. Eteläisestä Amerikasta x-bandin yksittäisiä argentiinalaisia lukuunottamatta tarjonta jäi vähäiseksi. Yhtenä aamuna oli jenkkien seassa hiukan kolumbialaisia Calin suunnalta. Lyhyet lattariaallot sen sijaan olivat erinomaisen vahvassa vedossa. Tällaisilla sw-lattarikeleillä ei kumpikaan ole aiemmin Lapissa ollut. Kaikki tavalliset asemat tulivat keskipäivällä aloituksen jälkeen hienoilla sinkuilla, ja lisäksi osa perulaisista kuului illalla sikäläisen auringonlaskun aikaan. Kun ei jenkkien grayline-efekti toiminut, piti tyytymän perulaisiin. HAT:lla olivat lähes kaikki kesällä kuunnellut lattarit jääneet raportoimatta sinkkujen heikkouden takia, joten nyt piti ottaa koko pakka uudelleen. Harvinaisuuksia ei haavin pohjalle sattunut, mutta kuitenkin raportteja tukuihin molemmille - mikä ei tosin tule näkymään QSL-kansiossa saakka, mikäli vanhat merkit paikkansa pitävät. Mukavaa ajanvietettä, joka tapauksessa!

Raportteja syntyi lukumääränsä puolesta riittävästi, ja onneksi on jotain nauhoja ja minidiskejä tutkitta-vaksi kevään ajalle. Pakkanen ja täysikuu kuun pimennyksineen antoivat talvipeditionille komeat ulkoiset puitteet, jotka etelän talvesta ovat tyystin puuttuneet. Tästä on hyvä jatkaa dx-vuotta. (HAT)

SOUTH AFRICA

Thanks Costas. I would like to clarify with
everybody the following: 1. Radio Lusofonia is a
new service also starting to broadcast on 1/3/2001
via the WorldSpace satellite service, being the first
Portuguese Speaking radio service using the
technology of the 21st century; 2. We are now only
broadcasting via Sentech in Meyerton in Short
Wave between 20:00 and 21:00 hours local time
[UT + 2] on Saturday and 20:00 and 21:15 hours on
Sunday. The content of the programs is Religion
(Christian) programmes from American
congregations. Language used on Short Wave as
from now: English; 3. Mr. A. de Andrade who is a

partner also at Radio Lusofonia used to be the owner of Swaziland Commercial Radio and Radio Cidade Internacional which were both sold in October 2000 to the Universal Church of the Kingdom of God (Brazilian); 4. Postal address to be used: P O Box 1586, Alberton 1450; 5. E-mail to be used: dario.bettencourt@tollink.co.za Regards and please distribute this information to those concerned. From sunshine Johannesburg. (dario.bettencourt@tollink.co.za, Tel. +27 12 3618833, Fax. +27 12 348 3713, Feb 5 via Costa Constantinides, Cyprus, DX LISTENING DIGEST)

ASIA

CHINA (HONG KONG)

864 seems to have stopped calling itself Quote AM, and was noted in early January with IDs/ slogans such as 'The AM service of the Hong Kong Commercial Radio Company Limited', 'AM Eight-Six-Four', 'Hong Kong's Best Music' and an abbreviation which could be 'HMB'. I'm not sure which if any of these is now the 'official' name. (Alan Davies, 9.1.2001) MV Eko

CNR-8 is a new service beamed to border areas of China inhabited by people of the minority ethnic groups, using five ethnic langs: Mongolian, Zhuang, Uighur, Kazakh and Korean.

Monitored schedule:

2100-2200 Korean: Beijing 4190, 5420
 2200-2300 Mongolian: Beijing 4190, 5420
 2300-2400 Tibetan: Xi'an 7275, Baoji 7550, 9500, 11710, 12080, Beijing 11780, 15670

(various sources, updated on Jan 20, 2001 via BCDX 504) CRW

GEORGIA I've heard that some US DXers think that a stn heard on 5040 might be Georgia. To clarify this I should mention that Georgia on 5040 after a long period of somewhat irregular operation has been off completely for several months now. This was the last one of the Georgian 60 mb txs to die. 4610 and 4875 have been off for years. All three were quite strong here when they were active [in USSR era, ed.]. (Olle Alm-SWE, Cumbre Jan 29) Topnews

Radio Khara: Following up on Alm's report of the demise of the Georgian state radio [on SW], Passmann reported that Radio Khara is still active here on shortwave. I realized how little is known about Radio Khara. It was time to find out more and here is what I came up by searching old Cumbres, the Internet, and asking folks for help: First reported in March 1999 [Pankov], Radio Khara grew out of a conflict between Georgia and

Abkhazia. At times, Abkhazia has been independent, most recently they were 'part' of Georgia. When they tried to break away once again as the Soviet Union collapsed, Georgia challenged them. Fighting broke out with Abkhazia gaining defacto autonomy and a cease fire with Georgia by the early 1990's. Since that time, UN observers and Russian troops have kept an eye on the things [various news sources via Johnson.] Radio Khara plays Western music such as Joe Cocker in a pattern of one song and what sounds like news items read by a man and woman. DXers have not been able to ID the language the station is broadcasting in, but it transmits in Abkhazian [Pataridze]. They do announce what sounds like an address and phone number at the end of the broadcasts [Pankov], but I can find no record of anyone able to translate this contact information, let alone receiving a QSL [Johnson.] Although mostly heard in Europe, the station has been heard as far away as Singapore [Lam]. The station has used both

4540 and 4875, but has settled on 4875 for the moment [Pankov]. The transmitter site is at Dusheti, which is in bad shape [Ludwig] with Khara on 4540 sounding like about 5 kW [Alm]. Radio Khara is on 4875 at 1700-1730 on Monday and Thursdays with a repeat of the previous day's broadcasts at 0500-0530 on Tuesdays and Fridays. Radio Khara is sponsored by the Georgian-Abkhazian Relations Institute in Tbilisi. "Khara" means "We" in Abkhazian. The accent of Radio Khara is on Georgian-Abkhaz reconciliation, and the history of these two people who have lived together for centuries. The Institute does not have a website [Goulmara Pataridze, CZECH REPUBLIC] (Hans Johnson, Cumbre DX Special Feb 1, via DXLD)

INDIA

AIR buys new Thomcast SW and MW txs. A first contract regards the supply of five SW 250 kW txs from Thomcast SK 53 family of AM radio txs. These transmitters will be installed on the sites of Khambur, Delhi and Aligarh and will be dedicated to overseas broadcast. The second contract is based on the supply of five MW 300 kW txs from the Thomcast S7HP radio txs family [like at VoA Munich Ismaning], which will be replacing existing LP txs on five different sites of national and local channels within India. (Thomcast Paris, Jan 15, via BBCM via DXLD)

4770, AIR: - Bjorn Fransson-SWE was the first to rpt this UNID, and when I checked on Jan 9 I found Indian mx at arnd 1430, then cmtry to 1630*, poor rcpn and no ID then or over the next few days, when rcpn was no better and very noisy. Much better today, Jan 14, at 1430, with Indian mx sounding like Kashmiri mx, 1445 short annmt, mx at 1500-1515, Delhi nx relay in Hindi, 1500 in En, 1545 nx in Urdu after some ads, cmtry, 1559 very brief annmt by man, possible ment. of Leh, then Kashmiri literary progr in Urdu (often hrd on 4950 but not \ to it). Loss of audio at 1605. Leh moved? (Mahendra Vaghjee-MAU, NU Jan 9/14) Topnews

KOREA D.P.R.

3905.8v Korean Central BS 1330-1500 with talk, drama, local mx, ID at 1359. Fair signal but audio quality was bad. Not heard everyday.

(Juichi Yamada-JPN, Jan 28)

Coded SW bcs to South "suspended", NoKorea reportedly has suspended SW bc of code matrix to SoKorea since the end of Dec 2000. Acc to SW listening groups in the ROK [Rep of Korea] and JPN, NoKorea has suspended SW code matrix bc, in which a woman announcer read random numbers, since the end of 2000. (KBS Radio Jan 25 via BBCM via DXLD, via Cumbre special Jan 31)

The source for this was the Asian Broadcasting Institute, here's their original piece. Thanks to Toru Yamashita: NoKorea Stops Numbers Broadcasts in Voice. NoKorea has ceased numbers bcs in voice after five decades of operations. Numbers bcs operated by

Pyongyang in A-3 mode have stopped by Dec after their activities gradually decreased following the first-ever inter-Korea summit meeting in June, 2000 between SoKorean President Kim Dae Jun and NoKorean leader Kim Jong Il.

There were three kinds of outlets for numbers txions in voice before the halt to such txions. The first one that opened with Red Flag Song over R Pyongyang at midnight LT almost daily, was last heard on August 25, 2000. Another numbers stn on 4770 and 5870 that opened with an IS arranged from Song of General Kim Il Sung was last monitored on Sept 11, 2000, while the third outlet over R Pyongyang that opened with March of the Guerrilla Army

was last intercepted Dec 8. Still, NoKorea continues numbers txions in Morse code. (ABI via Toru Yamashita-JPN, via Cumbre special Jan 31) Topnews

UNITED ARAB EMIRATES

Today in the Media Newsdesk at
[http://www.rnw.nl/realradio/html/medianews.ht](http://www.rnw.nl/realradio/html/medianews.html)
[ml](http://www.rnw.nl/realradio/html/medianews.html) we've published a story from Gulf News that
 Radio Asia has signed an agreement to run 24 hour
 services on AM and FM from Ras Al Khaimah. No
 start date is given in the story. The AM service will
 be mainly in Malayalam, with some other Asian
 languages such as Tamil, Urdu, Hindi and Pushto.
 But most interesting was the bit that said the power
 of the transmitter is now 200kW! That would
 explain the numerous loggings of this station on
 1152 in recent months. Now with a 24 hour
 service looming, it looks set to become a common
 DX catch :-) Andy Sennitt Radio Netherlands via

CHINA SHORTWAVE GUIDE. Bob Padula has produced this new guide, a comprehensive tabulation of data for broadcasters known to be operating in China (intl and regional) and in Taiwan (excluding clandestines), and also including the leased relays in those areas by intl b/cers as well as the relays outside China and Taiwan known to be operating for CRI and R. Taipei Intl.

The Guide contains over 1000 entries, in frequency order, and is free via electronic delivery. It is an Excel 7.0 .xls file of about 400 kb, not compressed. The file may be sorted, rearranged, or filtered as required, and any or all of it may be printed (it prints out to some 20 pages of A4, using a font of size-8). It may also be exported into other applications for rearrangement or reformatting. Each entry shows the network, organization, frequency, start time, end time, target, language, xmtr site, xmtr country, and b/c days. It also has various "clickable buttons," in colors, for each of the SW networks, which can be used (optionally) for calling up instantaneous listings for each Network.

A copy may be requested from Bob Padula at <bobpadula@bigpond.com>

A printed copy is also available in A4 format, 20 pages, showing the data in frequency order. Charge for the printed version: to OZ addresses, \$5 (cash, checks, postal orders, mint stamps); airmail elsewhere, US\$5 (A\$10) (cash, 7 IRCs, intl money orders in Australian currency, mint Australian

stamps; no checks). Write to: Bob Padula, 404 Mont Albert Road, Surrey Hills, Victoria 3127, Australia. (Bob Padula-Vic-AUS, edxp Jan 28) Topnews
