Eurooppa

1080	9.10.	1457-	RUS: RR, Kovytkino (Saransk). Ohjelman lopuksi tietoisu Saranskin kulttuuritarjonnasta. SSS
1314	9.7.	0152-	F: Loisirs AM, Paris. Kuului heinäkuussa joka aamuyö taajuuden vahvimpana. Ainoastaan espanjalaiset häiritsivät ajoittain. Hyvää musaa non-stoppina ja idejä melkein joka biisin jälkeen. ANA
1314	26.9.	2058-	ROM: R Oltenia Craiova. Sattuipas tarttumaan nauhalle oivan ID:n kera. Välineinä mainio Sangean ATS-803A + oma luuppi säätökonkalla. MK
	29.9.	2100-	- Local ID ennen tasan uutisia. Kuulutti komeasti MW- ja FM-taajuudet. Yöllä pop/rock formaatti, joten helppo erottaa iranilaisesta. VJR
1323	26.9.	0800-1000	RUS: Novoye R, Olgino (Pietari). Uusi yrittäjä tällä taajuudella. Eka tunti ajankohtaisohjelmaa, toinen tunti nonstop-musiikkia. Tnx Alexey Osipov tip! MR
1486.3	1.10.	1615-	MDA: R Moldova. Tämä askarrutti pari minuuttia, kunnes idasi ja paralleelikin löytyi jaksolta 1494. Ilmeisesti toinen tuon jakson asemista oli "lievästi" offsetillä. Myöhemmin illalla ei enää kuulunut, joten oli kai palannut ruotuun. JSA
1575	19.9.	0853-	F: R Nouveaux Talents, Meudon. Oli Voice of Russian häiritsemä. JHY/V

Aasia

603	6.10.	1430-	CHN: CRI, Dongfang, Hainan. CRI lähettää tässä vietnamiksi. SSS
639	6.10.	1400-	RUS: RR, Omsk. Lopetteli paikallisen ohjelmansa, kiinalainen hieman häiritsi. SSS
648	9.10.	1440-1530	IND: AIR Indore A. Ilmeisesti iranilainen vinkui vieressä taajuudella 650 kHz. Kuului myös kaupungissa keskusantennilla ja vanhalla, vuoden 1953 putki-Philipsillä 430 A. SSS
675	6.10.	1445-	VTN: VOV, Hanoi. Todella voimallisella signaalilla. SSS
891	8.10.	1400-1500	THA: Radio Thailand, Saraburi. Tämä näyttää olevan vakiokuuluja, kun antennit on kesän jäljiltä taas huollettu ja taisteltu metsässä hirvikärpästen kanssa, nämä otukset ovat levinneet jo Kainuuseenkin. SSS
1152	9.10.	1405-	PAK: Radio Pakistan, Rawalpindi. Kiitettävä kuuluvuus ja selkeä idi, taajuudella myös häiriökeleillä UAE-asema. SSS
1170	9.10.	1415-	PAK: Radio Pakistan, Peshawar. VoA Poron alta kuului Radio Pakistanin idi, tämäkin on uusi asema, teho tuntematon. SSS
1197	9.10.	1420-	KAZ: BBC, Astana. BBC World Service ilahdutti tälläkin taajuudella. SSS

1287	27.9.	1650-	J: JOHR HBC Hokkaido Hosono, Sapporo. Välillä dominoiden, samaan aikaan liuta tavallisia japseja - myös NHK-asemia alabandilla (747,774). Ennakoi pohjois-läntistä keliä myös. TK
1305	5.10.	1759-	KOR: HLSV KBS1 Uljin. selkeä kutsu-idi AM- ja FM- taajuuksineen. Tämäkin taajuus on parantunut Norjan lopettamisen jälkeen. TK
1314	26.9.	2100-	IRN: IRIB, Ardabil. Nousi Oltenia Craiovan alta. Todennäköisesti releoi valtakunnanverkon ohjelmaa. MK
1332	8.10.	1411-1420	PAK: Radio Pakistan, Lahore. Antaa IDEjä kiitettävän usein, saattoi olla jopa paikallinen idi 14.17. Tämä asema edelleen puuttuu useimmista tietokannoista, tehosta ei ole tietoa. Moitteeton signaali. Teheran tulee myöhemmin dominoimaan taajuudelle. Filateliakerho esti nauttimasta 5.10. japanilaiskeleistä, mutta kyllä näitä aasialaisia kuuluu aivan riittävästi. SSS
1350	5.10.	1658-	JPN: JOER Hiroshima. Täällä on joskus pieni breikki All Nite Nipponissa pari minuuttia vaille, joilloin "RCC" idejä. Ehkä syksyn paras japsikeli; ainakin voimakkaat asemat tulivat eurooppalaisten päällä useamman tunnin (mm 1242, 1278, 1287, 1314 – nyt vapaa taajuus, 1413 - 20out paremmin). Illalla vielä NHK-pimputuksia 1602 2025ut. Kuuluu nyt helposti, kun eurohäirikkö hiljaa. 7.10. kuului myös autoradiolla ja "paremmalla" rx:llä n 8 tuntia yhteen menoon! TK
1368	16.9.	1804-	TWN: Chin Hsi AM 1386, Kaohsiung. Idin avautuminen vaati muutaman kuuntelukerran ja vertailun aiempiin äänityksiin. JHY/V
1386	1.10.	1545-	THA: Kaan Kaset, Bangkok. Thai-asemia muutamalla taajuudella kohtuusinkulla (mm 1368). Mutta lokakuun ukkosmyrsky lähestyi ja pakotti kytkemään antennit irti! Tämä on hyvä taajuus myös Etelä-Suomessa, thain lisäksi usein Intia, Korea ja Kiina kuuluu tässä ennen euromyllyjen avauksia. TK
1404	9.9.	1533-	CHI: Hubei RGD, Yincang ym. JHY/V
1422	5.10.	1700-	JPN: JORF Yokohama. hankalalla taajuudella, mutta kuuluttaa saksalaisen vetäessä henkeä. Keli oli aika hyvä, myös 1440 Sapporo nousi välillä Luxyn taustalla. TK
1476.091	5.10.	1940-	PHL: DXRJ Iligan City. Tämäkin löytyy vanhalta tutulta splitiltä. Tuntuu olevan jo aikaisin äänessä, liekö 24h? TK
6245	13.9.	1800-	CLD: Radio Zamaneh. Uusi Iran-clandestine aloitti 11.9. Radiozamaneh.com. VJR

Oseania

3935.07 3.10. 1700- NZL: R Reading Service, Levin. Tässä BOG (350m, 40ast.) antaa selvän edun verrattuna longwire (150m) antenniin. LW:lla asema kyllä kuuluu, mutta pohjahäiriöt peittävät sen lähes alleen. BOG antaa heikomman sinkun, mutta "pohjat" ovat tasolla -140 dB (SDR14 mittari) ja audio luettavaa. Asema on hyvä myös taajuusmittausten kannalta - ehkä kalibrointiinkin - taajuus vaihtelee n. Herzin 3935.067 molemmin puolin, mikä on vahvistettu myös NZ:ssa ja Australiassa. TK

Pohjois-Amerikka

650 7.10. 2109- GRL: KNR Qeqertarsuaq. Myös CJYQ 930 nousi kuuluville samaan aikaan. Lisäksi 1230:lla kuului 2135 CBC-tyyppistä px + EE-talk. Siitä ei idiä irronut, mutta todennäköisesti CFFB. Tämän jälkeen yön kelit lässähtivätkin tyystin. ANA

850 6.10. 0408- USA: KOA Denver CO. newsradio 8-50 K-O-A. JNU
1000 7.10. 0304- USA: KOMO Seattle, WA. Tämä Lapista ja USA:sta tuttuakin tutumpi asema oli minulle Velkuan mökillä "uusi" nappaus. ANA

1130 7.10. 0125-0205 USA: KFAN Minneapolis, MN. PEH
1250 7.10. 0100- USA: WSSP Milwaukee, WI. "Sportsradio 12-50 WSSP" Promosi Michael Savage'a. PK

1280 26.9. 0345- BER: VSB2 Hamilton. Tämä jäi haaviin puolihuolimattomasti. Metsässä ihmettelin hiukan taajuudella kuulunutta englanninkielistä henksuasemaa, kun jenkkikeliä ei muuten tuntunut olevan. Kotona sitten selvisi Werhosta, että Bermuda (jota en ollut aikaisemmin kuullut?) lähettää tässä uskontoa. "BBN Bible Institute". Eipä voi muuta todeta kun, että aika hyvät mullakin on noi tärppilistat... Taajuudella kuului myös WCMN. RLO/V

30.9. 0358-0420 - Vuorotteli puertoricolaisen kanssa. PEH
5.10. 0308- - Bible Broadcasting Networkia välillä lujaakin. Feidaili PR-aseman kanssa, joka lopuksi kädenväännön voittikin. JNU

1300 7.10. 0118- USA: WOOD Grand Rapids, MI. "1300 WOOD". PEH
1310 6.10. 0413- CAN: CIWW Ottawa, ON. Arvasihan tuon jo formatin perusteella kun Don McLean & American Pie kuului. Pannaan nyt "listalle" kun ei niin helppo ole Lapin eteläpuolella ollut, mutta nyt helpottuu kun Norja lähti. "Oldies 13-10". Alla "sports talk" ja unid SS ja ranskaa puhuva. PK

1330 7.10. 0355-0450 USA: WWRV New York, NY. Olikin New Yorkin

R Visión Cristiana. "Las 11 y 13 minutos en toda la ciudad de Nueva York" ja sen jälkeen pitkä säätiedotus New Yorkiin. Ennen 04 englantia ja sitten espanjaa. Kirjoittaessani kuuntelen netin kautta WWRV:tä ja tuntuisi lähettävän omaa ohjelmaa, koska antaa aikaa NY:iin. Mutta kukapa tietää, jos sittenkin lähettää NY:n ohjelmaa muidenkin asemien kautta. Tasan kuulutus sen verran heikosti, ettei ainakaan vielä ole idiä löytynyt.
PEH

1510	7.10.	0248-	USA: KGA Spokane, WA. Vanhan vaihto-oppilaskaupunkini asema jaksaa vuodesta toiseen vahvalla signaalilla myös Turun saaristoon asti. ANA
1520	17.9.	0122-	USA: WWKB Buffalo NY. Buffalo's AM 15-20. JHY/V
1580	6.10.	0441-	CAN: CKDO Oshawa, ON. Esitteli FM-taajuutensa ja soitteli Roy Orbisonin "Pretty Woman". PK
1620	7.10.	0100-	USA: KOZN Bellevue, NE. Taajuudella oli sutinaa 3 jengin muodossa. Puolen tunnin kuuntelu irrotti vain "16-20 The Zone, Omaha's ESPN Radio"n. PK
	7.10.	0244-	- ANA
1630	28.9.	0327-	USA: KRND Fox Farm, WY. RLO/V

680	5.10.	0109-	PTR: WAPA San Juan. "7599111 - telefono para comunicarse con Guapa" ja eikun soittelemaan. PK
870	6.10.	0430-	PR: WQBS San Juan. Asema väitti olevansa "Guarda de Puerto Rico" Kuulutti myös "... aqui en WQBS 8-70 AM ...". PK
930	4.10.	0244-	PR: WYAC R. Puerto Rico. Heikosti Bogotalaisen ja Newfoundlandilaisen kyljessä. Mainitsi promossaan sekä 930 että 740 taajuudet. PK
1120	1.10.	0118-	PTR: WMSW R Once, Hatillo. "Radio Once 11-20". RLO/V
	6.10.	0100-	- WMSW La Gran W, Hatillo. Ei kovinkaan vahvasti näillä minuuteilla. PK
1230	6.10.	0017-	PTR: WNIK R Unica, Arecibo. Viimeinkin tämä jäi

			haaviin. "Unica Radio 12-30 AM". Mielestäni tämä on ollut ihmeellinen syksy. Syyskuusta alkaen mielenkiintoisia asemia on kuulunut joka kerta, kun olen käynyt Vähäsuon kämpällä. Ovatko kelit muuttuneet jotenkin vai mistä tämä johtuu? Radio ja antennit ovat samat kuin ennenkin! Tosin lattarilangan (n.600m/293 ast) olen uusinnut vuoden aikana, kun vanhassa alkoi olla liitoksia enemmän kuin metrejä. RLO/V
1280	30.9.	0355-0435	PTR: WCMN Arecibo. "Radio Uno 6-30, primera en las noticias" jätti lopulta Bermudan hopealle. PEH
	7.10.	0536-	- Todellinen superkuuluja nykyään. Signaali näivettyi vasta 0600 jälkeen. ANA
1300	1.10.	0309-	UNID: UNID. Mielenkiintoinen räppiä yms englanninkielistä poppia soittanut asema. Kelien suunnasta päätellen vahvin vaihtoehto olisi PJD-2 Philipsburg! Tosin aseman formaatista minulla ei ole tietoa. RLO/V
1300	6.10.	2254-	ATN: PJD-2 The Voice of St. Maarten, Philipsburg. Ehdottomasti tämän syksyn paras sieppaus, vaikka ei mikään suuri yllätys ollutkaan. Onneakin oli matkassa, sillä antoi idin samalla sekunnilla kun käynnistin äänityksen taajuudella. Aloitteli juuri urheiluohjelmaa, jonka toimittajalla on matala ja monotoninen ääni, josta ei saa mitään tolkkua. Kuului vain pari minuuttia eikä tuntunut nousevan enää myöhemmin, vaikka taajuutta tuli aina välillä kokeiltua. RLO/V
1540	7.10.	0015-	BAH: ZNS1, Nassau. ANA
1640	28.9.	0301-	UNID: UNID. Espanjankielinen, joka lähetti uutisia ja kuulutti lopuksi kutakuinkin: "Tele RN noticias". Voisiko olla R Juventus? RLO/V
1660	16.9.	0351-	PTR: WGIT Canovanas PR. TEJ
1680	6.10.	2358-	DOM: Radio Senda, San Pedro de Macorís. ANA
1700	28.9.	0350-	MEX: XEPE Tecate BC. Pikaisella bandin tsekkauksella tämä jäi haaviin. BMW-mainoksia San Diegoon ja taloustalkkia. Aivan mahtavalla signaalilla. Onkohan pilkkuminimi vai antennin pohjoisempi suunta syynä siihen, että nämä alkusyksyllä kuulemani asemat ovat tulleet jotakuinkin stabiilimmin kuin iso osa viime kaudella lokatuista? JNU
1700	7.10.	0236-	MEX: XEPE Tecate, BC. "Cash 1700". Pitkään ja hyvin. Kuului myös seuraavana aamuna (8.10.), vaikka kelit olivat selvästi huonommat. ANA

Etelä-Amerikka

560	5.10.	0400-	VEN: YVRH R. Nacional, Cd. Guayana. "Gloria"
-----	-------	-------	--

			-himnon jälkeen paukutteli samaa tavaraa 1310:n kanssa. Vaikea taajuus Kuopiossa yöaikaan. Tarkoittaa että "Pilkku-minimiä" pukkaa. PK
600	7.10.	0342-	VEN: YVQB R. Sucre, Cumaná. Pöriäisellä taajuudella idasi toisen LA:n (Rebelde?) alla. PK
660	4.10.	0359-	VEN: YVQZ R. Anaco 6-60. Muutaman vuoden jälkeen taas luureissa. "Médanos" kyllä yleensä dominoi. "Anaco seis-sesenta" "Desde Anaco, estado Anzoátegui". PK
760	5.10.	0039-	EQA: HCQR1 R. Quito. Odottelin RCN:n alta nousevaksi WORA:n mutta sieltä pilkahtikin idaamaan Quito. Ei jaksanut nousta oikein stabiilisti mutta tämä on jo SW:ltä kuitattu, joten ei ongelmaa. PK
790	3.10.	0219-0250	VEN: YVXM R. Minuto, Barquisimeto. Levyjen välissä arpajaistuloksia ja "La Palabra, Lotería" mainoksia. "Radio Minuto, primera sintonía, diez de la noche y 20 minutos.". PEH
830	8.10.	0420-	CLM: HJDM R. Reloj, Medellín. Lähetti jotain selostusta kovasti feidaillen, sitten kuulutus: "... con de programas de Radio Reloj..." ja jatkoi musiikilla häipyen hiljalleen häiriöihin. PEH
840	7.10.	0349-	ARG: LV9 R. Salta. Hämäsi tavallista rytmikkäämmällä musallaan mutta "AM 8-40 Radio Salta" kertoi totuuden. PK

1450	15.9.	0350-	CLM: HJNL La Carinosa Manizales. nousi kuin tykki tasan lähestyessä "La Cariñosa" idejä. Taajuus on splitillä 1450.025 alapuolella joukko muita. TK
1450	2.10.	0000-0450	VEN: YVKJ R.María, Caracas. Arvattavasti Sonera on vaihtanut nimensä "Radio María"ksi. Ainakin virallinen ID antaa siihen vahvat merkit. Tai sitten taajuusvaihto 1340 kanssa. PK
1460	31.8.	0420-0440	CHL: R Armonía Concepción. oli se toinen chileläinen näillä keleillä 1490:n lisäksi. Tämäkin nousi välillä urbaanin kohinan päälle. Henksuformaatti tälläkin (vrt Nuevo Continente). Tämä on karvan yli tasan (n.+5Hz). CIAOn testirf-tallenteessa (48kHz, 1455-1503) olikin kaikilla kymppitaajuuksilla asema - 1470 ilm. Argentina, 1480 Arg/Bras.- mutta "vain pari chileläistä" sai idattua. TNX taas kuunteluavusta JEÖ & JPR! TK/E
1490	15.9.	0346-	VEN: "RQ 910". on siis Merida, joka kuuluu tähän ketjuun. Melko tarkasti tasalla, vain n. 3 Hz yli. TK
1510	6.10.	0430-0500	EQA: Tentative: Instituto Oceanográfico Guayaquil.

			lienee tämä hämäävä asema, koska lähetti vain aikamerkkiä! Puolelta myös äänikuulutus ajasta, lienee idikin siinä, kunhan nauhoitusta ehtii tarkemmin kuuntelemaan. Bostonilainen peittosi myöhemmin vakiospliitillään n. +18 Hz. Tämä on tasalla, kuten aikamerkkiasemalle kuuluukin olla. Ei kuulunut kuitenkaan sw-taajuudellaan 3810. Samaan aikaa Teleradio 1350 tuli hetkittäin hyvin eli keliä oli Ekvadoriin(kin). TK
1630	1.10.	0246-	ARG: L... AM Restauración, Hurlingham. Mielenkiintoinen keliyö: Argentiinaa ja Karibiaa sekaisin. Myös 1620:lla kuului espanjankielinen henksuasema, joka lienee argentiinalainen. Harmittavasti vain WDHP tunki päälle R Martillaan ja Kuuba-höpinöillään. RLO/V

AZERBAIJAN: I was briefly in Baku earlier this week and can report that Radio Dada Gorgud is still on the air - just. I heard it at various times, including the sole daily English transmission at 1700 on both 1296 and 6111 (approx). The MW transmitter is now on-channel (ex 1295) but audio quality is poor and the signal was surprisingly weak. In the evening, it was suffering interference from the IBB transmitter in Afghanistan: Signal strengths on 6111 were also poor, though that might be because I was in the skip zone. It is worth noting that the Dada Gorgud ID is still being used. The ID in English was "Radio Dada Gorgud, the Voice of Azerbaijan". Overall though, the poor signals and audio quality meant that station was not properly monitorable in its own capital city.

Some other Baku observations in brief: As per WRTH, 1296 also relays RFE at times, in parallel with 1530 (the latter much stronger in Baku). Of the other MW channels listed in WRTH, 549, 801 and 891 were heard (all in parallel) but there was no sign of listed Baku 612. The 801 transmitter carries Azeri Radio, not BBC as in WRTH (BBC is on 103.3 FM). (Chris Greenway via dxld yg 14/9-2006)

BHUTAN: 6035 Bhutan BS on 9/25, 9/26 and 9/27 from DX Tuner Sweden. 9/27 w/ s/on 0059 w/ anthem or Bhutanese inst mx, man ann at 0100 until 0117, local stringed inst mx 0117.5, man ann again at 0118, more stringed inst mx 0121.5, man ann 0122, vocal/inst Bhutanese songs at 0124.5 and 0127.5 (more like man chanting here). Pgming was similar all three days

until a daily wipe out at 0129 from 6040 adj ch s/on with S5+ signal. Signal quality has consistently been S3+ and tonight (9/27) is S4 – never been hrd this well before from either Johannesburg or Sweden DX Tuners – new 100 KW xmtr?? Even before 0129 had strong adj channel splash but strong BBS carrier punched thru that until 0129 QRM from 6040. Like Nepal, look for this on ECNA or Europe on a good So. Asian evening. WCNA will be possible later in Fall or early Winter. (Churchill CDX). BBS 6035 heard at 0000-0600, English at 0500-0600, 0900-1000, 1400-1500 (Jacob, India, October via dxldyg)

Was nice to receive a letter earlier this year directly from DG, but am still very happy to have this AFRTS card (Ron Howard, Monterey, CA, dxldyg via DXLD) AFN Diego Garcia has been observed in September on 12759U instead of former 12579U. INDONESIA: 3578.74 RSPK Ngada (p) 1305-1345 Sep 29. Man talking, not // to stations running Jak news; into vocal music at 1316. Poor and deteriorating but always glad to get some audio out of this one. Very weak carrier still there at 1400. (Wilkins-CO CDX)

IRAN: Voice of the Islamic Republic of Iran (VIRI) 1st Programme is now observed identifying as "Radyo Iran, Seda-ye Jomhuri-ye Eslami-ye Iran" [Radio Iran, Voice of the Islamic Republic of Iran]. The former on-air identification as "Shabake-he Sarasari-ye" [Nationwide Network] is no longer used. Most of the radio section of the broadcaster's website <http://www.irib.ir> has been inaccessible for several days at least, though the audio stream page <http://live.irib.ir> still refers in English to the service as "Nationwide Radio". LAOS: 567 MW, Lao National Radio (LNR) has recently extended its evening schedule to 1600*. I would guess this also applies to 6130. I have not been able to confirm the shortwave schedule yet, as reception of 6130 is usually very difficult here so late in the evening. (Davies in Dexplorer, Sep 10 via DXW)
LNR International Service 7145 10kW; 2330-2400 Vietnamese, 0000-0030 Khmer, 0500-0530 Thai, 0530-0600 French, 0600-0630 English, and 1130-1200 Thai, 1200-1230 Vietnamese, 1230-1300 Khmer, 1300-1330 French, 1330-1400 English. (Davies via CDX)

MALAYSIA: 5030.02, Sarawak FM is still heard 2200-1600 in Malay // 7130, 24h on FM, and also 0000-0200 and 1000-1200 on Kuching 729 MW. Around Aug 30 and 31, the Sarawak SW frequencies probably operated an extended schedule for coverage of Malaysian Independence Day celebrations on Aug 31. (Davies in Dexplorer, Sep 10)

5964.94, RTM Kuala Lumpur, Kajang; the Nasional FM network merged with Klasik FM on Aug 12, and has been re-named "Klasik Nasional

FM", with a format of news, info and Malay oldies presented in Malay. The network operates 24h. It is also transmitted on the former Nasional FM network, and additionally in Kuala Lumpur on the Klasik FM frequency, 93.9 MHz. (Davies in Dexplorer, Sep 10)

6049.64, RTM, Kajang, near Kuala Lumpur, carries Info FM in Malay 0200-0500, Asyik FM in Malay and Orang Asli languages 0500-1500, and Suara Islam for listeners in Indonesia 1500-1700. (Davies in Dexplorer, Sep 10). Also heard in California 1400-1420, Sep 13, religious program starts with choral anthem, many Suara Islam FM IDs, reciting from the Qur'an; 1605-1659:30*, segment with on-air phone calls ("Hello. Assalam aalaikum"), 1630 news, variety of music (ballads, pop, etc.), reciting from Qur'an, off with choral anthem. Fair, but fading out to poor by s/off. I believe the recent info submitted by Alan Davies had a typo: should be 1400-1700 for Suara Islam, as has been observed on a number of occasions, including today, instead of 1500-1700; with Asyik FM (RTM) actually going to 1400, not 1500. (Howard)

6050, RTM, Sibu, Sarawak, is still active, but with a reduced schedule: 2200-0100 relaying Wai FM Kuching in Iban, and 0400-0700 apparently with local programming from Sibu FM, probably also in Iban. I have been unable to trace an evening transmission from Sibu on 6050. Even in Kuching, the 0400-0700 transmission from Sibu is more or less unintelligible because of interference from the Kajang transmitter currently on approx. 6049.64. (Davies in Dexplorer, Sep 10)

7130, RTM, Sarawak FM (presumed), 1336-1353, Sep 13, random checks, musical program under QRM (CNR-2/China Business Radio with English Evening program till 1400, then changes to CNR-1), clearly // 5030 (under CNR-1). Brief periods of being fair, but mostly poor, due to strong China QRM. (Howard)

7270.15, RTM, Kuching, Sarawak, is scheduled as follows: 2200-0100 Wai FM Iban; 0100-0400 Wai FM Bidayuh; 0400-0700 relays Limbang FM in Lun Bawang; 0700-1000 Wai FM Kayan/Kenyah; 1000-1600 Wai FM Iban. The same Wai FM programmes are on Kuching 548.92 MW, except at 0400-0700 when 548.92 is off air. (Davies in Dexplorer, Sep 10)

7295, RTM, Traxx FM, Kajang, 1450-1540, Sep 17, DJ playing oldies (“Sad Eyes”, “Sign Of The Times”, etc.), 1500 2 pips, “News roundup from RTM - Kuala Lumpur. From the news center in Kuala Lumpur”, IDs (many “Traxx FM, experience the excitement” jingles and one echo jingle “T-T-T R-R-R A-A-A X-X-X FM-FM-FM”), fair. (Howard) (All via DXW)

NEPAL: Radio Nepal was heard sign on at 2315 UT on 576, 648, 684, 792 and 810 kHz but not on the listed 1143 kHz. 5005 was also heard later. At 2315 UT they have chimes for 5 O' clock (am). From 1615 UT on 576 BBC relays were heard (Jose Jacob, Mussoorie DX-pedition, North India, dx_india via DXLD)

PAKISTAN: R Pakistan HS monitored as follows:
5034 v Quetta 0045-0410 (Fri 0345) 1200-1800
5080v Islamabad 0200-0400 1300-1800
6065 Islamabad 0430-0515 0530-0615
7150.3 Quetta 0600-1145 (Jacob, India, October via dxldyg)

UNITED ARAB EMIRATES: On 648 kHz Radio Asia was heard at night in Malayalam, my mother tongue. News Hour was heard at 1930 UT with detailed

information about the happenings in my native state Kerala. It's one of the many stations for the Indian migrants in the Gulf. They used to operate on 1557 kHz till very recently (Jose Jacob, Mussoorie DX-pedition, North India, dx_india via DXLD)

OCEANIA

MICRONESIA: PMA – Pacific Missionary Aviation is building FM station in Pohnpei. According to Galcom prayerlist they also have now a license for shortwave station. PMA web www.pmapacific.org (DXLD and various sources September)

According to PMA, the shortwave transmitter will be 500 Watts and will operate on tropical band. Station under construction. (JSA)

CUBA

530 Air Marti is up now! - Reactivated tonight 11.8.2006, and at new time. Up at 2300 GMT, 530 kHz of course. Blasting in, near local level as I type. (Terry L Krueger, Clearwater, FL, USA, via DXLD.)

The following national Cuban radio networks are broadcast on AM and FM throughout the country and are also available on the Hispasat ID 30 degrees west satellite:

- Radio Progreso: cultural, musical, light entertainment, welfare and social issues with 73 per cent of adults listening in any week. <http://www.radioprogreso.cu>
- Radio Reloj: news and information with 71 per cent of adults listening in any week. <http://www.radioreloj.cu>
- Radio Rebelde: informative, varied, with sports programmes with 68 per cent of adults listening in any week. Also available on shortwave. <http://www.radiorebelde.com.cu>
- Radio Enciclopedia: cultural, light instrumental music with 32 per cent of adults listening in any week. <http://www.radioenciclopedia.cu>
- Radio Taino: tourist information, entertainment and music, some broadcasts in English with 30

per cent of adults listening in any week. <http://radiotaino.cubasi.cu>

- Radio Musical Nacional: music and cultural programming. Audience share unknown. <http://www.cmbfjazz.cu>

Nearly 160 provincial stations operate throughout Cuba, many of which have a noticeably different format from the national networks by providing a less formal and livelier presentation. Overall they have about 40 per cent of adults listening in any week. For a list of provincial stations with a web presence, see:

<http://www.comfm.com/live/radio> and also http://radiostationworld.com/locations/Cuba/radio_websites.asp
 (BBC Monitoring research 15.8.2006 via DXLD.)

Wobbler: In brief, the Wobbler is not a station, it is an unexplained anomaly of some Cuban broadcast stations. When heard in its most vigorous mode it sounds like a sheet of metal being shaken or wobbled, hence the name I coined for the thing. At its most extreme it can be heard at night over powerhouse stations all across the country. As I mentioned, such an example on 1100 Radio Cadena Habana, from Havana Cuba, was heard in Hawaii. The northwest of the US has heard the Wobbler, but I don't think anyone from California has reported hearing any. There are a dozen or so Cuban stations which exhibit this unpredictable condition. There is no way to know when one or several might be heard, though in the past there have been periods where one sounded off for several days if not weeks at a time. Every day since I started tracking them -- well over a year now -- there has been at least one and usually a half dozen or so heard every day, but very much weaker than can be heard from beyond the near local south Florida vicinity. You can read about the suggested cause of the phenomenon -- generally believed to be attributable to malfunctioning old equipment and an unstable power system. You can also hear samples of it, and see spectrum traces of the signal. Plus, as I say, a lot more including my logs (W. Curt Deegan, Boca Ratón, (southeast) Florida <http://ScooterHound.com/WWWR/wobbler> Sept 8, IRCA via DXLD via SWN.)

PARAGUAY

About ZP21 at 1230 khz: "ZP21 Radio Oriental/Tajy/Centenario 1230 AM/1570 AM no longer exists. It never succeeded in recovering from the financial setbacks, and has been superseded by Centenario FM, on 99.5 MHZ. I spoke with the station personnel, today, and confirmed the matter. The Cabrera family retains the FM station. I am uncertain as to what happened with Señor Yinde." (Adan Mur, Paraguay, via MWN.)
