Eurooppa

1062	13.8.	2200-	+ POL: Twoje Radio AM Cmolos, Cmolos. Paikallisidi Jaroslavin jälkeen, joskin selvästi heikommin: "Twoje Radio AM Cmolos 1062 kHz". 15. paikallinen Twoje. JMS
1584	7.8.	2217-	POL: Twoje Radio AM. Kesisreissulla bongattu puolalainen soitteli paikallista poppia ja discoa. HAR
1584	5.8.	1900-	+ POL: Twoje Radio AM Krosno, Krosno. Uusi asema, tehoa 800 wattia ja otti samalla Twoje-dominanttiuden tällä taajuudella. Kiitos MR infosta! Heinäkuussa herruus oli Ozorkowilla, vaan ei ole enää. Kyllä tämä Twojejen maailma on mielenkiintoinen. Suotta emme perustaneet ANA:n kanssa Kesiksessä Suomen Twoje kuuntelijoiden yhdistystä. Antti nimitettiin Sanok-alajaoston puheenjohtajaksi, minut Jaroslaw-alajaoston vastaavaan pestiin. Lisää jäseniä otamme mielellämme, mutta jäsenvaatimukset ovat kovat: paikallisidi on joltain Twojelta saatava :). JMS
1602	8.8.	1943-	FIN: SWR Virrat. Turusta Laitilaan palattuani viritin Jesun SWR:n kesiradion taajuudelle. Signaali oli loppuillasta Laitilassa todella mahtava. Kiitos SWR:n välle kesiradion pyörittämisestä. HAR
6160	9.8.	0640-0700	RUS: R Pomorye. Reg. ohjelmaa Arkhangelista. KTU

Piraatit

6265	8.8.	2232-	HOL: Cupido Radio. Aamorin nuolen radio jälleen vauhdissa. HAR
6310	4.8.	1850-	HOL: Spaceman. Nro studioon +31621948070. KTU
6325	9.8.	0835-	D: R Devalon Int. Pirate news ja pätkiä muiden ohjelmista. KTU
99.000	8.8.	2145-	FNL: R Globo, Turku. Onnettoman FM-kesän ilopilleri, vaikka soittelikin vain munatonta lentoyhtiön jonotusmusiikkia. Lupaili vastata osoitteesta globo@radio.fm. VJR

Brittein saaret

1602	27.4.	0300-	G: Desi R, Southall. "This is Desi Radio". JHU/Å
------	-------	-------	--

Iberia

1296	10.7.	2245-	E: COPE Valencia. Antoi tässä yllättäen asemakuulutuksen: "COPE Valencia, mil dos cientos noventa y seis Onda Media". TTH
1386	9.8.	2044-	E: Euskadi Irratia, Bilbao. 2100 aikamerkki ja uutisia. Kreikkalainen piraatti-QRM noin 1385 kHz. JTS

Afrikka

540	12.6.08	2200-2301	+ NIG: Rima Radio, Sokoto. Kuului usein kesällä 2008, mutta kuluneena kesänä en ole saanut kuuluviin. Poistetaan vanhasta lokauksesta tentatiivisuus, kun vastasi vuoden odottelun jälkeen. Ja millä tavalla vastasi: EMS-erikoispika
-----	---------	-----------	--

Sokotosta, jossa vastauskirjeen 'lisukkeena' oli käsin tehty personoitu nahkasalkku (toisella puolella aseman logo, toisella kuuntelijan nimi) ja käsin tehdyt aseman nimellä varustetut lompakot vaimolle sekä lapsille. Näin upeaa vastausta en ole ennen saanut. Pitänee unohtaa seuraavilla peditioneilla jenkit ja keskittyä afroihin. Kuluvalla viikolla lähtee EMS-erikoispika vuorostaan Espoosta Sokotoon.
JMS

1206	3.8.	2000-	MOZ: EP do Inhambane, Inhambane. Kuului hyvin "R Mocambique"-ideillä häiriön alkaessa. Muina iltoina Israel jyrää. Uutiset ja urheilua. Kuulunee taas 17.8., kun häiriö tulee. QTH Haapavesi SDRIQ ja 200m BOG Lähi-Itään. TK/H
3955	12.8.	1755-	AFS: Zimbabwe Community R via Meyerton. Testilähetys. JSA
4739.97	7.8.	1730-1808	SDN: Tentative: R Peace. Lienee nyt tämä uudella taajuudella, ei idiä, mutta ohjelmatyyppi sopii, samoin lopetusaika (n 18 utc, kantis pois myöhemmin) Taajuus n [4739.971], huojuu. TK/H
4828	29.7.	1835-	ZWE: VO Zimbabwe. Uutisia englanniksi. KTU
15190	3.8.	2040-	GNE: VO Truth. Osoite Alabamaan. Olisiko via R Africa? KTU

Aasia

1386	15.8.	1959-	KOR: MBC Mokpo. Tämä ja muutama japsi (ainakin 1242,1413) uuden K-bölen TA-langan takakeilalla (TNX MR,MKA,LN!) ennakoi ehkä TA-keliä, kun pidettiin epäsynkronoitua PUDXK-kesäkokousta nro 2; samalla viriteltiin mm Perseuksia (joista toinen kärähtikin) yms... uusi keliennuste laadittiin mustikkapiirakasta, jonka mustikat olivat hävinneet taikinan pohjalle (vrt "blank sun"). Tämä vanhalla splitillä n +4Hz, Espanja tasalla (uudet spanskitaajuudet 1386 & //1476 häiritsevät iltaisin ja öisin kaukoasemien kuuntelua). PUDXK/K-Böle (TK)
4750	16.8.	0000-	BGD: Bangladesh Betar. Aikamerkki, id ja uutiset? Kieli taisi olla bengalia. MCK

Oseania

2368.5	3.8.	1730-2100	+ AUS: R Symban, Sydney NSW. Heikko signaali, mutta musiikkikappaleet pystyi tunnistamaan samoiksi web-rx:n kautta. Voimistui paikallista auringonnousua kohti, mutta ei puhekohdista sittenkään saanut selvää. Tämä on nyt eri QTH:sta Sydneyn eteläosasta, ennen tuli Gosfordista 60 km pohjoisempaa. Korotti tehoaan tänään, ilm. nyt n. puoli kW. Tarkka 2368,485 kHz, vaihtelee ±1 Hz. MR

Pohjois-Amerikka

950	15.8.	0117-	CAN: CKNB Campbellton NB. Nousi välillä hyvin pintaan. Paljon jaksoja puhisi, mutta lähinnä vain powerplayt lujaa. JVH/S
1030	15.8.	0125-	USA: WBZ Boston, MA. Tämä ja muutama muu

1050	15.8.	0130-	vakiojenkki kuului melko mukavasti. PEH USA: WEPN New York NY. Sports "on New York Jets Radio Network" ja "ESPN New York". JVH/S

1390	11.8.	0100-	USA: WEGP Presque Isle ME. MJ
1400	31.7.	0100-	CAN: CBG Gander NL. Julistan täten Karperön jenkkikauden avatuksi. Koirakin heräsi ihmettelemään kun katkaisin Fiskarseilla silkkinauhan Porilaisten Marssin soidessa. Tuliterä 840m 295° tiputti henksun tyystin pois ja CBCn tasan pimputus pääsi kuuluviin, nihkeästi mutta varmasti. MJ
	4.8.	0010-	- Kauden eka NA-asema. Tarkka 1400,009 kHz. MR
	11.8.	0059-	- Jäi ainoalla eli 285°-langalla henksun jalkoihin. JVH/S
1470	12.2.	2330-	USA: WLAM Lewiston ME. Lähetti simulcastina tv- kanava WCSH:n uutisia, ja antoi verkko-osoitteen wesh6.com. MCK/N
1510	11.8.	0100-	USA: WWZN Boston MA. Kutsu-id tasalta. Välillä jopa hyvin. Yläbandilla useita NA-jaksoja auki, pääosin heiveröisesti. Alabandilla 590 hyvin ja 750 heikosti. CA- mx 1450 ja 1540. JVH/S
	11.8.	0100-	- Ei ole kesä splittiä vienyttä. MJ

Keski-Amerikka

640	12.8.	0200-	GDL: Tentative: RFO Guadeloupe. MJ
910	14.11.08	0659-0840	CUB: CMFA Radio Cadena Agramonte, Camagüey CM. Vajaan parin tunnin raporttiin mahtui yksi mainoskin: "Para prevenir apareción de mosquitos - El Autofocal". LEM267
1000	12.11.08	0609-0645	CUB: CMCH Radio Cadena Habana HA. Kuului mainiosti peitoten Granman. Kuulutteli FM-taajuuttaan 99.9 usein. Taajuutta ei ole listattu, eikä liene aiemmin kuultujen joukossa. LEM267
1000	12.11.08	0545-0630	CUB: CMDF Radio Granma, Manzanillo GR. LEM267
1020	12.11.08	0355-	CUB: CMKS Radio Trincherá Antiimperialista, Guantanamo GU. Käytti sekä kutsua että pitkää muotoa ideissään. "El mensajero CMKS". Tämä asema lienee ex- 1070. Arvatkaas, mikä kappale soi tunnusmusiikkina? Tietenkin Guantanamera. LEM267
1040	13.11.08	0840-0940	CUB: CMCH Radio Cadena Habana HA. Tämän aseman audion saanti on usein työn ja tuskan takana, tänään se onnistui. Listaamaton taajuus tämäkin. LEM267
1060	12.11.08	0542-0630	CUB: CM.. Radio 26, Matanzas MA. Kuubaloki piti saada tyyliin sopivasti tänään (26.7.) aseman nimen ja Kuuban juhlapäivän viitoittamana julki. Tämä tarkoittaa sitä, että Progresot, Rebeldet ja Relojit lokaan tuonnempana. Pyydän vielä huomioimaan, että tämän LEM-pediksen järjestysnumero "selvästi" viittaa Kuuba- keleihin! LEM267
1070	12.11.08	0634-0700	CUB: CMAS Radio Guamá, Pinar del Rio PR. "Guamá - la emisora de toda noticia" taisteli Emisora Atlanticon kanssa. LEM267
1110	13.11.08	0700-0840	CUB: CMKO Radio Angulo, Holguín HO. Soitteli

			Maná-fanin iloksi "El muelle de San Blas"-kappaleen. "Transmité CMKO Radio Angulo, desde Holguin, Cuba". LEM267
1140	4.8.	2359-	PTR: WQII San Juan PR. MJ
1150	13.11.08	0500-0840	CUB: CMKX Radio Bayamo, Bayamo GR. Entronque Bueycito-tx. "Esta es Radio Bayamo, Cadena Provincial Granma, desde la Ciudad del Monumento Nacional". LEM267
1240	13.11.08	0245-0400	DOM: Radio Maria del Altagracia, Santo Domingo. LEM267
1350	13.11.08	0849-0936	CUB: CMFL Radio Ciudad del Mar, Cienfuegos CI. Aqueda Pasajeros-tx. Käytti ideissään nimiä "RCM - Cadena Provincial de Radio Cienfuegos" ja "Radio Ciudad del Mar". LEM267
1400	12.2.	2331-	GRD: Harbour Light of the Windwards, Carriacou. FM-kelien puutteessa huomio kiinnittyy talven SDR- tallenteisiin, ja tämäkin löytyi juuri päättelemässä Dr. Joy Spencen "The Christian Woman" -ohjelmaa. MCK/N
	21.7.	0000-	-. Uunituore 285°-beve ja tasan idit leipoivat Lempäälän Sääksjärven mökki-QTH:ni kauan haaveillun ekan lokauksen. Ed. yön ilmeisen hyvät kelit olivat jo notkahtaneet, mutta asemia töhkytteli yhä. Vahvimpia myös 1610 REL ja 1620 calypso. JVH/S
	27.7.	0100-	- Tämä jyräsi korjatulla 270°-langalla. Käsittääkseni jos tämä kuuluu heinäkuussa näin hyvin, kieriskelee naapurin ruispelossa keskiyöllä ja laittaa lasten hamsterit tikapuiden alle tunniksi tulee loistava jenkki-kaus...no toivoa ainakin sopii. MJ
1439.85	16.8.	0200-	NCG: YNRM Radio Maranatha, Managua. Uusi MW- kausi lähti käyntiin uudella MW-maalla! Kuului noin puoli tuntia phone-in-ohjelmallaan. Idaili kiitettävän usein. Yöllä bandilla perusasemat Orinocosta ja Jenkeistä, mm. Marylandin WPTX 1690 komeasti. 1600:lla idasi "Radio Internacional 1600 AM", mutta oli tietenkin WUNR eikä perulainen. JMS

Etelä-Amerikka

620	3.8.	0200-	B: ZYK521 R Jovem Pan, São Paulo SP. MJ
710	15.8.	0220-	ARG: LRL202 R Diez, Buenos Aires. "Radio Diez – siempre noticias". MJ
740	15.8.	0155-	B: ZYH446 R Sociedade da Bahia, Salvador BA. Lähettää tähän aikaan Igreja Universal de Deus-kirkon ohjelmaa. Aiemmin taajudella kuului jenkki, ilm. CHCM. PEH

1030	23.7.	0130-	ARG: LS10 R Del Plata, Buenos Aires. Hienosti toimii kesäksi laitettu 700m 255° "terapialanka". Minulle uusia roppakaupalla, mm. mielenkiintoisia brasseja ja la platalaisia. Tästä alkaa uusi kausi jota on odotettu kuin kuuta nousevaa... MJ
1130	2.8.	0037-	VEN: YVRL R Ideal, Maiquetía. Myös 1020, 1070, 1290,

1190	19.7.	0200-	1310 ja 1470 vaikuttivat venezolanoilta. JVH/S
1200	30.7.	0140-0205	ARG: LR9 R América, Buenos Aires. MJ B: Ceará R Clube, Fortaleza, CE. Ainoalla eli CA-langalla tämä vahvin, sitten 1410 ja muitakin brasseja töhisi, joten B-bevellä tarjontaa olisi arvatenkin ollut. JVH/S
1230	8.8.	0032-	ARG: LT2 R Dos, Rosario. "Radio Dos es Notícia" avasi AM kauden lopetellen uutisia. PEH
1320	2.8.	0108-	PRU: Tentative: R La Cronica, Lima. Hempeää mx ja yksi kuulutus, ilmeisesti "R La Cronica". Samalla 1400 pelotaa ja 1500 andahtavaa, sekä NA ainakin 590, 1390 ja 1400. 02 tienoilla yläbandilla brasseja, mutta liian heikosti. JVH/S

1390.22	3.8.	0145-	B: UNID. Lienee tämä entinen Itapirema uudella nimellä (Radio Planalto), joka kuultu keväällä Euroopassa tällä vanhalla splitillä. TK/H
1430	15.8.	0226-	CLM: HJKU Emisora Kennedy, SF de Bogotá. "Desde Bogotá, Colombia para el mundo 1430 AM Radio..... en la vanguardia de comunicacion" Nami, en muista kolumbialaista elokuussa kuulleenikaan. Toisaalta en ole varmaan koskaan yrittänytkään....Tarkka mielestäni 1430.061. MJ
1440	28.7.	0200-	+ ARG: Impacto AM 1440, Tapiales, BA. Tasataajuudella 1440.00 oli Radio Rivera, tämä Impacto oli hieman ylempänä 1440.03. Tasalta siteerasi Matteuksen 11:28, puolelta kuulutti molemmat puhelinnumeronsa 4442 6333 ja 4442 6076. Idiä ei antanut, mutta numerot vahvistavat identiteetin. Thanks Henrik for pointing me to the right direction. JMS
1470	11.8.	0114-	VEN: Radio Vibración, Carúpano. Yläbandilla useita YV-jaksoja, mm. 1290, 1310, 1390 ja 1500. JVH/S
1500	30.4.	0240-	B: ZYL215 Rádio Montanhesa, Viçosa MG. Olikin tämä, eika taajuuden tavallinen. TNX kuuntelusta PUDXK:n kesätapaamisessa JPR (Oulussa 6.8). Keli olikin suuntautunut MG:oon tuolloin keväällä. Jalkapalloa, tuli kohtuulujaa [1499.998]. TK
1510	28.7.	0058-0200	PRU: Tentative: R Alegría, Arequipa. Iloista menoa ymmärrettävyyden rajoilla, ehkä "Alegría" Perusta. Olisikohan kuulunut ratkaisevasti paremmin baluunin juurella hyttysten kaverina, ts. ilman 60 m koksia ja 3 lisäliitintä? JVH/S
1520	28.7.	0200-	B: Radio Continental, Rio de Janeiro. Pientä keliä tänä yönä. Taajuudella 1440 promoili Uruguayn Rivera viikonlopun juhliä. Muut kymppit jäivät identifioimatta. Ei mitään kunnan keliä vielä kuitenkaan. JMS
1540.281	30.4.	0230-	B: Tentative: ZYL226 - Globo, Conselheiro Lafaiete (MG). "R Globo" idejä futisohjelmassa, mutta oliko omia vai releointia? Brasilistan mukaan ainoa Globo, ex R Clube - myös tämä MG:stä kuten 1500. Huomattava splitti. TNX JPRTästäkin, mm 1440 ja 1560 brassit jäivät vielä odottamaan seuraavaa PUDXK-kokousta! TK

DENMARK

Political pressure for DRM on 243 kHz.

The Danish Parliament has asked the Culture Minister, Mrs. Carina Christensen, to outline the opportunities and prospects of using DRM digital radio for long-range broadcasts. The [question](#) comes after nine months of successful DRM tests on 243 kHz from the historical longwave towers of the Kalundborg transmitter, which underwent a [five year](#)

[lifetime extension](#) last year.

The previous long-range AM analog transmissions on 243 kHz were shut down in early 2007, despite protests from maritime organisations, politicians and listeners. At the time, public service broadcaster DR told [Radionyt.com](#) that it would keep the 243 kHz frequency for future DRM transmissions, in line with the provisions in the broadcaster's 2005 [Media Initiative](#) (page 26) that "present transmissions ... cease in 2007 to allow the frequencies to be reserved for DRM technology".

Whereas the remaining 250 kW high-power transmissions from Kalundborg on 1062 kHz have limited range and can be received over long distances only at night, reception of 243 kHz is virtually constant around the clock and covers most of Western Europe, the North Sea, the Faroe Islands, Iceland and the southern parts of Greenland.

Internationally, India has announced that it will expand its present DRM transmissions with a [national network](#) of 78 medium-range DRM broadcasting stations over the next five years. In Russia, a state organisation has released [additional frequencies](#) to cover that country with long-range DRM broadcasts.

With a combined population of 1.3 billion, these two countries are expected to trigger the mass production of affordable [DRM receivers](#), and exhibited new low-cost designs and chipsets at the latest international IFA radio exhibition.

The major Western European countries already have extensive long-range DRM transmitter networks, with the BBC, RTL and German public-service broadcasters in front.

Challenger Radio is a new low-power station from Italy, broadcasting on 1566 kHz mediumwave. Test transmissions have consisted of religious programming. Challenger Radio broadcasts from Villa Estense, in Padua (Padova in Italian) in the North-Eastern part of the country. According to Italian DXer Fabrizio Magrone, the transmitter power is 500 watts, and the station plans to broadcast in digital DRM in the future. The station can be reached by [email](#) and by phone at +39-0429-660118.

Another new AM station in Italy is Radio Broadcast Italia from Rome on 1485 kHz. According to Magrone, the station has a 1-kilowatt transmitter, but is currently broadcasting at half power. Radio Broadcast Italia transmits historic recordings of pioneering Italian pirate radio stations. The station can be reached by [email](#). Roberto Scaglione reported on the new stations on the EMWG mailing list on June 6. ([DXing.info](#), June 14, 2009)

PORTUGAL

Emissora Nacional de Radiodifusão, later RDP
and currently the radio branch of RTP-Rádio e
Televisão de Portugal.

During a visit to the Faro MW site at Meia
Légua (this is between Faro and Olhão) in mid
last week, I learned this place was initially
intended for not only a 200+ m high MW
monopole serving a 100 or 200 kW tx but also
for a 2nd HF site dedicated exclusively for the
Portuguese Africa. In fact, the site is huge,
many hectares around, with only a small
portion actually used now, viz. for the current
70+ m monopole with capacity hat consisting
of just 3 wires sloping from the top.

The old open wire feeder is still to be seen, but
the monopole is fed via co-axial cable from the
tx hut housing 3 txs, viz. an old 10 kW
Marconi out of use, a 10 kW Nautel
(Canadian) and a 1 kW stand by unit whose
brand I forgot. The house is big enough to
accommodate a 100 kW unit, if needed. The
area surrounding the tower is regularly flooded
because of the ground plane (120 radials,
typical). The big concrete anchors for the
planned 200 m tower are visible amidst the

ones securing the existing monopole.

The 200 m tower never materialised because in
the meantime the Faro airport was built, and if
you can check on GoogleEarth, you'll
understand why.

No more details about the planned second HF
site, but I estimate it was never built because of
the airport.

But in Faro itself, just close to the RDP house,
at Campo Senhora da Saúde, along the
Calouste Gulbenkian Avenue, the original MW
monopole from the late 40s/early 50s is still
up. The place is now surrounded by many
buildings... and I bet many will ask themselves
what the rusty tower is doing there...

R. Sim, a channel of the R. Renascença group
has been experiencing some problems at their
Muge site, where the MW operation is served
by 3 Harris transmitters, viz. 1 x 100 kW
(typically at 60- 80 kW only) (currently under
repair) and 2 x 10 kW, i.e. the ones that
are being used now, but even these are
radiating noise on several spurs to either side
of the fundamental frequency, 594, and the
modulation level is simply lower & worse than
one might expect, quite worse than on any of
the their southern transmitters, 927, 891, 963.

Ramadan is almost upon us as it precesses earlier and earlier by the Western calendar:
approximately Aug 22 to Sept 20, and you know what that means for SW broadcasts from Islam-
dominated countries (Glenn Hauser, OK, DX LISTENING DIGEST)

Veronica 558: Same time, same frequency, just 35 years later. On August 31st 2009, Spectrum
